

Author's guidelines

Please notice: The paper must not be published previously in another journal!

The article may extend over approx. 6 – 10 printed pages in the journal. Required data are:

Text

- Please supply the text as a word processing file
- Length approx. 10 000 – 16 000 characters
- Short, concise title (not more than 100 characters)
- Information on the author and if applicable the co-authors: Full names with academic titles, company/university (with city/country) as well as professional occupation/position
- Summary consisting of a maximum of 500 characters
- Sections numbered consecutively from 1 to n, beginning with the section “Introduction“

Figures/Tables

- Please number/caption figures consecutively beginning with Fig. 1
- Please number/caption tables consecutively beginning with Tab. 1
- Figure references: e.g., “**Figure 1** shows ...“ or as a reference in brackets “**(Fig. 1)**“
- References to tables: e.g., “**Table 1** shows ...“ or as a reference in brackets “**(Table 1)**“
- The most advantageous number of figures is 1 to 2 per printed page of the journal
- Graphic data files e.g. as "tiff", "eps" or "jpg", resolution with format 10 x 15 cm 300 dpi
- Please do not embed digital figures in the text or in the Word document!
- Please include a high-resolution leading image with figure caption strikingly highlighting the content of your contribution
- All figure and table captions should be placed at the end of the text with consecutive numbering as a list

Literature

- The literature should be placed at the end of the text
- The bibliography references must be numbered consecutively in square brackets [1] to [n]
- The bibliography index (should contain not too many and only relevant bibliography quotes)

Translation/File transfer

The translation into either German or English can be carried out by the publisher. The quality of the translation can be greatly improved, if you are able to include either German or English language documentation of the project (leaflets, other publications etc.). Large data files of a total of more than 10 MB are best sent on CD-ROM or using our service “MailXXL” (<http://www.it-bauverlag.de>).
