

Authors' guidelines

Please notice: The paper must not be published previously in another journal!

The article may extend over approx. 6 to 10 printed pages in the journal.

Required data are:

Text

- Please supply the text as a Word processing file (doc / docx)
- Length approx. 10000 to 16000 characters (without blanks)
- Short, concise title, not more than 100 characters (without blanks)
- Information on the author and if applicable the co-authors: **Full names with academic titles**, Company/university (with city/country) as well as professional occupation/position
- Summary consisting of a maximum of 300 characters (without blanks)
- Sections numbered consecutively from 1 to n (1 / 1.1 / 1.1.1; beginning with the section "1 Introduction"

Figures/Tables

- Please include a high-resolution leading image with figure caption strikingly highlighting the content of your contribution – size min. 2 MB at a picture size of 10 x 15 cm with 300 dpi
- Please number/caption figures consecutively beginning with Fig. 1
- Figure references: e.g., "**Figure 1** shows ..." or as a reference in brackets "**(Fig. 1)**"
- Please number/caption tables consecutively beginning with Tab. 1
- References to tables: e.g., "**Table 1** shows ..." or as a reference in brackets "**(Tab. 1)**"
- Graphic data files e.g. as "tiff", "eps" or "jpg", resolution with format 10 x 15 cm = 300 dpi
- All figure and table captions should be placed at the end of the text with consecutive numbering as a list
- The most advantageous number of figures is 1 to 2 per printed page of the journal
- Please **do not embed** digital figures in the text or in the Word document!

References

- The literature should be placed at the end of the text
- The bibliography references must be numbered consecutively in square brackets [1] to [n]
- The bibliography index (should contain not too many and only relevant bibliography quotes)

Example:

[1] Muster, M.; Mayer, V.: Emissions, ZKG International 61 (2008), No. 3, pp. 86-92

[2] Smith, J.: Cement Clinker, in: Brand, F. (Publisher): Cement Chemistry, Paul & Brock, Berlin, 2020, pp. 39-56
